End Date: November 27, 2026 (weather dependent)

About ASI

Archaeological Services Inc. (ASI) is a Canadian-owned firm and the country's largest archaeological and cultural heritage consulting company. Founded in 1980, ASI has offices in Toronto and Burlington and provides expert archaeological and heritage consulting services across the province.

ASI is committed to maintaining an inclusive, equitable, and accessible workplace in accordance with the Accessibility for Ontarians with Disabilities Act (AODA), the Canadian Human Rights Act, and the Ontario Human Rights Code.

About the Role

ASI is seeking Field Technicians to support archaeological field projects throughout Ontario, conducting Stage 2–4 archaeological assessments. This is a physically demanding field-based role requiring work in outdoor environments under varying weather conditions. Responsibilities include:

- Assist in the completion of Stage 2 – 4 archaeological assessments under the direction of a Field Director.
- Conduct field walking and test pit surveys, unit and feature excavations, including identifying and recording stratigraphy, and collecting and bagging artifacts.
- Perform physically demanding tasks, including walking long distances, standing for extended periods, bending, kneeling, and lifting or carrying objects up to 50 lbs.
- Adhere to health and safety regulations and communicate in an effective and professional manner.
- Maintain reliable attendance and punctuality for scheduled shifts and assignments.
- Demonstrate professionalism and respect when working on culturally sensitive sites and during Indigenous engagement.

Who Should Apply

ASI is looking for individuals who:

- Have an interest in Indigenous and Historical archaeology of Ontario.
- Enjoy working outdoors, experiencing something new every day.
- Passionate about health and safety and being a part of a team.
- Enjoy travelling the province and staying in accommodations.

Qualifications

Required:

- High school diploma, or equivalent.
- Ability to work primarily outdoors in physically demanding conditions.
- Ability to travel to designated meeting points for project deployment
- Strong attention to detail and ability to follow instructions.
- Demonstrated ability to work effectively in a team environment.
- Willingness and flexibility to travel throughout Ontario, including overnight stays and travel by vehicle or other required modes of transportation.

Preferred:

- Post-secondary studies in a related field.
- Experience in conducting archaeological assessments.
- Familiarity with the MCMs Standards and Guidelines for Consultant Archaeologists and its associated Technical Bulletins.
- Experience working in outdoor conditions.

What ASI Offers:

- Opportunities for enrollment in the Benefit Plan and Pension Fund.
- Mentorship and career development, including archaeological licensing support.
- Work boot reimbursement program.

How to Apply:

To apply, submit a CV and Cover Letter to resumes@asiheritage.ca with the subject line:

“Application for Field Technician Position”

Indicate your preferred work location: Burlington, Toronto, or Northern Remote

Applications will be accepted on a rolling basis until positions are filled.
